Career Objective

Motivated and detail-oriented BCA student with strong foundational skills in front-end development and a proven ability to work in team settings. Seeking a dynamic placement opportunity to apply my technical expertise and contribute effectively to innovative projects.

Educational Qualifications

- Bachelor of Computer Application (BCA), Integral University, Lucknow – Expected 2026

Technical Skills

- Languages: Java, C++, C, Python
- Web Technologies: HTML, CSS, JavaScript, NodeJS, Bootstrap
- Domain: Front-End Development

Projects

- Cake Ordering Website

Link: shreyancakehub.vercel.app

Technologies: HTML, CSS, JavaScript, NodeJS, Bootstrap

Description: A responsive cake ordering demo website with a clean user interface and dynamic components. Built to showcase user interaction, categorized cake listings, and mobile responsiveness.

- JavaScript Projects beginner to advance level

Technologies: HTML, CSS, JavaScript, NodeJS

Link: <https://github.com/Shreyan-cell/JAVASCRIPT-PROJECTS>

Description: Independently developed and documented a comprehensive JavaScript project while progressing from basic to advanced concepts.

Implemented core JavaScript features such as DOM manipulation, event handling, asynchronous programming (Promises, async/await), and working with APIs.

- Shreyan's Cafe Website

Technologies: HTML, CSS

Link: <https://679a3ef1bda3d71d00df76aa--dapper-ganache-cffd1c.netlify.app/>

Description: Designed and developed a fully responsive portfolio website using only HTML and CSS. Focused on clean layout, modern UI, and user-friendly design principles to ensure compatibility across devices. Demonstrated strong understanding of front-end structure, semantic HTML, and custom styling.
